Program: Forensic Science
Major: Forensic Science - Chemistry
Degree: Bachelor of Science (B.S.)

University Core  (Total Listed 42-44)

For a full list of courses see University Core.

• Courses from the major may apply to the areas marked in the University Core.

Written and Oral Communication .................................................... 9

Quantitative Reasoning/Scientific Method ........................................ 10-11
  • Math........................................................................................ 3
  • Life Science............................................................................ 4
  • Physical Science .................................................................... 3-4

Critical Inquiry and Aesthetic Analysis .............................................. 6
  Aesthetic Analysis.................................................................... 3
  Critical Inquiry....................................................................... 3

Major Requirements

Forensic Science - Chemistry ...................................................... 36

Required Courses ........................................................................ 24
FRSC 2503 Intro to Forensic Science
FRSC 3043 Crime Scene Processing
FRSC 3123 Criminal Procedure for Forensic Science
FRSC 4253 Forensic Science Analysis & Lab
FRSC 4323 Forensic Toxicology & Lab
FRSC 4513 Forensic Chemistry & Lab
FRSC 4533 Forensic Microscopy & Lab
FRSC 4900 Practicum in Forensic Science (3 hours) OR
FRSC 4930 Individual Study (3 hours) OR
FRSC 4950 Internship in Forensic Science (3 hours)

Other Required Courses ................................................................ 12
BIO 1204 Biology for Majors: Principles
BIO 1225 Biology for Majors: Diversity
BIO 1225L Biology for Majors Lab
STAT 2103 Intro to Statistics for Sciences

Additional Degree (Chemistry, Chemistry ACS, or Chemistry-Health Sciences)

All students completing a B.S. in Forensic Science-Chemistry must complete an additional degree. The B.S. in Forensic Science-Chemistry must be combined with the B.S. in Chemistry or B.S. in Chemistry-ACS Certificate or B.S. in Chemistry-Health Sciences.

The Forensic Science-Chemistry undergraduate degree program is not a stand-alone program. There are two mechanisms for earning the Forensic Science-Chemistry degree: (A) Earn a concurrent degree by completing requirements in the Chemistry or Chemistry ACS or Chemistry - Health Sciences program and the additional 32 hours in the Forensic Science-Chemistry program; (B) Earn a second bachelor’s degree after possessing an appropriate Chemistry degree by completing 32 hours in the Forensic Science-Chemistry program.

The number of credits needed to meet degree requirements exceeds 124 hours and will vary according to course selection.

Minimum Grade Requirements

1. Average in all college course work and course work at UCO................................................................. 2.25
2. A minimum grade of “C” must be earned in all courses in the major to count toward meeting degree requirements.

For other regulations pertaining to graduation, see Academic Degree Requirements.
