Guide Overview

This Guide will take you through the process of preparing and submitting Expense Reports. A travel Expense Report should contain all expenses for a travel objective, even if expenses were made months apart, as is commonly seen with Airfare. Submitting an Expense Report certifies that the expenses listed are accurate and appropriate, while sending the Expense Report on for review by the designated approvers. Even though a Delegate can prepare your Expense Report for you, only you can submit it. If a Delegate has prepared the Expense Report for you, you should be notified when the Expense Report is ready for submission. Notification might be in the form of email or verbal communication from the Delegate.
