

## **CHEMICAL SPILLS:**

1. Evacuate the area as needed.
2. Call Police Services at 974-2345 or 9-1-1.
3. Most chemicals are odorless, so remember just because you can't smell it doesn't mean it's not harming you. Look at the Material Safety Data Sheets (MSDS) for health hazards and required personal protective equipment.
4. Seal the area off. Only trained personnel should be permitted to enter the area.
5. Check MSDS for precautions and cleanup information.
6. Wear appropriate personal protective equipment. (gloves, respirator, shoe covers)
7. Clean up spill following precautions listed in MSDS for that chemical.
8. Use appropriate absorbent, and neutralizing material or a spill kit to clean up.
9. Dispose of all contaminated material as hazardous waste.

## **CHEMICAL SPLASH ON BODY/EYES:**

1. Remove contaminated clothing. Flush skin or eyes with water for at least 15 minutes.
2. For chemical splashes to the eyes. Hold eyelids open for flushing of the eyes for 15 minutes.
3. Make sure chemicals have not accumulated in the soles of shoes. This could be a potential long term exposure point.
4. Seek medical attention for all chemical splashes to the eyes by calling Police Services at 974-2345 or 9-1-1.
