Foundations of Speech-Language Pathology should be completed either prior to or concurrent with the Fall junior/prerequisite beginning sequence of courses listed below. The Fall classes serve as prerequisites to the Spring prerequisite courses. It is strongly recommended that all three beginning courses be completed simultaneously – if you do not plan to do so, please visit with Dr. Sealey-Holtz. Be aware that permission is given and prioritized based on GPA – those with higher GPAs either in their overall or their last 30 hours GPA will be given permission earlier. You will be notified when it is time for you to enroll. You should NOT wait to enroll in other courses you need based on obtaining permission for the SLP courses; it will be possible to drop-add later when given permission to enroll in the SLP beginning sequence courses. If there are any special circumstances regarding your degree program or planned enrollments that you feel we should be aware of, please describe them on the back side of this form.

I am asking permission to enroll in the following courses:

- SLP4003 Foundations of SLP or Taken Previously – which semester? _________________
- SLP4014 Normal Language Development
- SLP4724 Speech & Hearing Mechanism
- SLP4143 Acoustic Phonetics M-W or T-R (circle one)
- SLP4054 Language Disorders
- SLP4673 Speech Sound Disorders
- SLP4223 Audiology

*A minimum GPA of 2.75 is required to be considered for permission to enroll in the Fall beginning sequence courses; priority will be given to students with higher GPAs. Once classes are filled, additional applicants with the required GPA will be placed on a waiting list and will be given first priority in filling available seats. Students should submit updated transcripts if additional coursework is completed that could affect the order in which you are given permission.

Undergraduate Sequence: It is expected that most undergraduate SLP majors will have approximately 64 credit hours completed at the point that they start the SLP beginning level sequence courses.

How many credit hours will you have completed by the beginning of the Fall semester? ______________

English Language Proficiency: Command of the English language is crucial to success in the Speech-Language Pathology program. You must meet the minimum requirements for proficiency in English. An oral interview may be required in cases when cultural or linguistic variations are present.

Are you an International Student attending UCO on a visa? Yes No
If yes, please, submit a copy of your TOEFL score report with this request. An oral interview may be requested.

Program Use Only: DATE RECEIVED: ______________________________

_____ Grad Applicant (Degree ____________) _____ UG SLP Major _____ UG Gen.Studies

_____ Total GPA _____ Last 60/30 _____ Total Credit Hours as of __________________
