

Science, Technology, Engineering, Math & Health

In these majors, you learn more about how the world works through research, analysis and application. You can cultivate intellectual advancement, develop new models/theories and analyze data to problem solve within your discipline. Several of the health-related majors involve helping people become healthier and well in all areas of their lives.

COLLEGE OF BUSINESS

[Information and Operations Management –Management Information Systems*](#)

COLLEGE OF EDUCATION & PROFESSIONAL STUDIES

[Community/Public Health*](#)

[Occupational Safety*](#)

[Kinesiology – Exercise/Fitness Management*](#)

[Kinesiology – Outdoor & Community Recreation*](#)

[Nutrition, Dietetics, and Food Management*](#)

[Physical Education/Health*](#)

[Psychology*](#)

[Speech-Language Pathology*](#)

COLLEGE OF MATHEMATICS AND SCIENCE

[Actuarial Science*](#)

[Biology](#)

[Biology – Biomedical Science](#)

[Biology – Medical Laboratory Science](#)

[Biomedical Engineering](#)

[Chemistry](#)

[Chemistry – ACS Certificate](#)

[Chemistry – Health Sciences](#)

[Computer Science](#)

[Computer Science – Applied](#)

[Computer Science – Information Science](#)

[Electrical Engineering](#)

[Engineering Physics – Physics](#)

[Forensic Science](#)

[Forensic Science – Chemistry](#)

[Forensic Science – Digital Forensics](#)

[Forensic Science – Molecular Biology](#)

[Funeral Service*](#)

[Mathematics](#)

COLLEGE OF MATHEMATICS AND SCIENCE (cont.)

[Mathematics – Applied Mathematics](#)

[Mathematics – Statistics](#)

[Mathematics Education*](#)

[Mechanical Engineering](#)

[Nursing](#)

[Science Education – Biology*](#)

[Science Education – Chemistry*](#)

[Science Education – General Science*](#)

[Science Education – Physical Science*](#)

[Science Education – Physics*](#)

[Software Engineering](#)
