for full list of courses see University Core.
• Courses from the major may apply to the areas marked in the University Core.

Written and Oral Communication ................................................. 9
Quantitative Reasoning/Scientific Method ................................... 10-11
• Math ................................................................. 3
  Life Science ............................................................ 4
  Physical Science .......................................................... 3-4
Critical Inquiry and Aesthetic Analysis ........................................ 6
  Aesthetic Analysis ......................................................... 3
  Critical Inquiry .......................................................... 3

Prerequisite Courses

Prerequisite Courses ....................................................... 0-6
*MATH 1533 Precalculus-Algebra OR
  MATH 1513 College Algebra OR Placement Score AND
*MATH 1593 Plane Trigonometry OR Placement Score

*A grade of ‘C’ or better is required for either MATH 1513 or MATH 1533 and MATH 1593 to take MATH 2313.

Upon completion of the above courses, corresponding general education requirements will be satisfied. (These courses are required for this major regardless of previous degrees conferred.)

Major Requirements

Mathematics ............................................................... 47
Required ............................................................ 30
  MATH 2313 Calculus 1
  MATH 2323 Calculus 2
  MATH 2333 Calculus 3
  MATH 2343 Calculus 4
  MATH 2753 Technology for Professional Math and Statistics
  MATH 3113 Foundations of Advanced Math
  MATH 3143 Linear Algebra
  MATH 3183 Introduction to Modern Algebra
  MATH 4143 Introduction to Analysis 1
  STAT 4113 Mathematical Statistics 1
Electives ............................................................... 17
At least nine (9) hours must be selected from the following:
  MATH 3103 Differential Equations
  MATH 3163 Elementary Number Theory
  MATH 4153 Introduction to Analysis 2
  MATH 4483 History of Mathematics
  STAT 4123 Mathematical Statistics 2
All other elective courses must be selected from 3000 and 4000 level MATH courses (including those MATH courses listed above).

Electives to bring total to ................................................... 124

American Historical and Political Analysis ............................... 6
American National Government .............................................. 3
American History .............................................................. 3
Cultural and Language Analysis .............................................. 3-4
Second Language ............................................................ 4
OR
Cultural Analysis .............................................................. 3
Social and Behavioral Analysis ................................................ 3
Life Skills ........................................................................... 5
Required Health Course ...................................................... 2
Elective Health Skills .......................................................... 3

It is strongly recommended that PHY 1114 General Physics I and Lab be taken in the general education core.

Minimum Grade Requirements

1. Average in (a) all college course work, (b) course work at UCO, and (c) major courses ........................................ 2.50
2. A minimum grade of “C” must be earned in all courses in the major to count toward meeting degree requirements.

For other regulations pertaining to graduation, see Academic Degree Requirements.

Accelerated BS/MS
The Department of Mathematics and Statistics offers a M.S. program in Applied Mathematical Science. Students in the B.S. Mathematics program are eligible to pursue, with approval, an M.S. Applied Mathematical Science degree beginning in their senior year. Approved B.S. students may take up to nine credit hours of 5000-level MATH or STAT courses during their senior year of the B.S. program. These courses will count toward both the B.S. and M.S. degrees. A formal application to the M.S. Applied Mathematical Science program and an approval from the Department of Mathematics and Statistics are required. Requirements are located in the UCO Graduate Catalog under Applied Mathematical Science - Mathematics, Applied Mathematical Science - Statistics, or Applied Mathematical Science - Teaching.

Up to nine credit hours of the following courses can be used to satisfy both the B.S. Mathematics and the M.S. Applied Mathematical Science programs:
  MATH 5113 Operations Research 1
  MATH 5123 Operations Research 2
  MATH 5263 Numerical Linear Algebra
  MATH 5373 Applied Numerical Analysis
  MATH 5453 Mathematical Modeling

- CONTINUED ON NEXT PAGE -
Program: Mathematics - continued
Major: Mathematics
Degree: Bachelor of Science (B.S.)

- CONTINUED FROM PREVIOUS PAGE -

MATH 5910 Seminar/Special Topics*
STAT 5103 Applied Experimental Design
STAT 5123 Mathematical Statistics 2
STAT 5213 Applied Regression Analysis
STAT 5263 Computer Applications in Statistics

*Students are restricted to one (1) cross-listed 5910 course while classified as an ADP student.

Accelerated BS/PSM
UCO’s P.S.M. (Professional Science Master’s) in Computational Science has partnered with the B.S. in Mathematics so that approved students may take up to nine credit hours of 5000-level MATH or STAT courses during their senior year of the B.S. program. These courses will count toward both the B.S. and P.S.M. degrees. A formal application to the P.S.M. Computational Science program and an approval from the Department of Mathematics and Statistics are required. Requirements are located in the UCO Graduate Catalog under Computational Science - Computational Mathematics, P.S.M.

Up to nine credit hours of the following courses can be used to satisfy both the B.S. Mathematics and the P.S.M. Computational Science - Computational Mathematics:

MATH 5113 Operations Research I
MATH 5263 Numerical Linear Algebra
MATH 5373 Applied Numerical Analysis
STAT 5263 Computer Applications in Statistics
STAT 5213 Applied Regression Analysis
